

Number: Number and Place Value

COUNTING							
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6		
count to and across 100,			count backwards through	interpret negative	use negative numbers in		
forwards and backwards,			zero to include negative	numbers in context, count	context, and calculate		
beginning with 0 or 1, or			numbers	forwards and backwards	intervals across zero		
from any given number				with positive and negative			
				whole numbers, including			
				through zero			
count, read and write	count in steps of 2, 3, and	count from 0 in multiples	count in multiples of 6, 7,	count forwards or			
numbers to 100 in	5 from 0, and in tens from	of 4, 8, 50 and 100;	9, 25 and 1000	backwards in steps of			
numerals; count in	any number, forward or			powers of 10 for any given			
multiples of twos, fives	backward			number up to 1000 000			
and tens							
given a number, identify		find 10 or 100 more or	find 1000 more or less				
one more and one less		less than a given number	than a given number				
		COMPARIN	G NUMBERS				
use the language of: equal	compare and order	compare and order	order and compare	read, write, order and	read, write, order and		
to, more than, less than	numbers from 0 up to	numbers up to 1000	numbers beyond 1000	compare numbers to at	compare numbers up to		
(fewer), most, least	100; use <, > and = signs		compare numbers with the	least 1 000 000 and	10 000000 and determine		
			same number of decimal	determine the value of	the value of each digit		
			places up to two decimal	each digit	(appears also in Reading and		
			places	(appears also in Reading and	Writing Numbers)		
			(copied from Fractions)	Writing Numbers)			
		DENTIFYING, REPRESENTING	AND ESTIMATING NUMBER	S			
identify and represent	identify, represent and	identify, represent and	identify, represent and				
numbers using objects	estimate numbers using	estimate numbers using	estimate numbers using				
and pictorial	different representations,	different representations	different representations				
representations including	including the number line						
the number line							

Number: Number and Place Value

	READING AND WRITING NUMBERS (including Roman Numerals)							
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6			
read and write numbers from 1 to 20 in numerals and words.	read and write numbers to at least 100 in numerals and in words	read and write numbers up to 1000 in numerals and in words		read, write, order and compare numbers to at least 1 000 000 and determine the value of each digit (appears also in Comparing	read, write, order and compare numbers up to 10 000 000 and determine the value of each digit (appears also in Understanding Place Value)			
		tell and write the time from an analogue clock, including using Roman numerals from I to XII, and 12-hour and 24- hour clocks (copied from Measurement)	read Roman numerals to 100 (I to C) and know that over time, the numeral system changed to include the concept of zero and place value.	Numbers) read Roman numerals to 1000 (M) and recognise years written in Roman numerals.				
		UNDERSTANDI	IG PLACE VALUE					
	recognise the place value of each digit in a two-digit number (tens, ones)	recognise the place value of each digit in a three- digit number (hundreds, tens, ones)	recognise the place value of each digit in a four-digit number (thousands, hundreds, tens, and ones)	read, write, order and compare numbers to at least 1 000 000 and determine the value of each digit (appears also in Reading and	read, write, order and compare numbers up to 10 000 000 and determine the value of each digit (appears also in Reading and Writing Numbers)			
			find the effect of dividing a one- or two-digit number by 10 and 100, identifying the value of the digits in the answer as units, tenths and hundredths (copied from Fractions)	Writing Numbers) recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents (copied from Fractions)	identify the value of each digit to three decimal places and multiply and divide numbers by 10, 100 and 1000 where the answers are up to three decimal places (copied from Fractions)			

Number: Number and Place Value

ROUNDING								
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6			
			round any number to the	round any number up to	round any whole number			
			nearest 10, 100 or 1000	1000000 to the nearest	to a required degree of			
				10, 100, 1000, 10 000 and 100 000	accuracy			
			round decimals with one decimal place to the nearest whole number (copied from Fractions)	round decimals with two decimal places to the nearest whole number and to one decimal place (copied from Fractions)	solve problems which require answers to be rounded to specified degrees of accuracy (copied from Fractions)			
		PROBLE	M SOLVING					
	use place value and number facts to solve problems	solve number problems and practical problems involving these ideas.	solve number and practical problems that involve all of the above and with increasingly large positive numbers	solve number problems and practical problems that involve all of the above	solve number and practical problems that involve all of the above			

Number: Addition and Subtraction

	NUMBER BONDS						
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6		
represent and use number bonds and related subtraction facts within 20	recall and use addition and subtraction facts to 20 fluently, and derive and use related facts up to 100	ΜΕΝΤΑΙ (CALCULATION				
add and subtract one-	add and subtract numbers	add and subtract	ALCOLATION	add and subtract numbers	perform mental		
digit and two-digit	using concrete objects,	numbers mentally,		mentally with increasingly	calculations, including with		
numbers to 20, including	pictorial representations,	including:		large numbers	mixed operations and large		
zero	 and mentally, including: a two-digit number and ones a two-digit number and tens two two-digit numbers adding three one-digit numbers 	 * a three-digit number and ones * a three-digit number and tens * a three-digit number and hundreds 			numbers		
read, write and interpret mathematical statements involving addition (+), subtraction (-) and equals (=) signs (appears also in Written Methods)	show that addition of two numbers can be done in any order (commutative) and subtraction of one number from another cannot				use their knowledge of the order of operations to carry out calculations involving the four operations		

Number: Addition and Subtraction

	WRITTEN METHODS							
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6			
read, write and interpret mathematical statements involving addition (+), subtraction (-) and equals (=) signs (appears also in Mental Calculation)		add and subtract numbers with up to three digits, using formal written methods of columnar addition and subtraction	add and subtract numbers with up to 4 digits using the formal written methods of columnar addition and subtraction where appropriate	add and subtract whole numbers with more than 4 digits, including using formal written methods (columnar addition and subtraction)				
	INV	VERSE OPERATIONS, ESTIM	ATING AND CHECKING ANS	WERS				
	recognise and use the inverse relationship between addition and subtraction and use this to check calculations and solve missing number problems.	estimate the answer to a calculation and use inverse operations to check answers	estimate and use inverse operations to check answers to a calculation	use rounding to check answers to calculations and determine, in the context of a problem, levels of accuracy	use estimation to check answers to calculations and determine, in the context of a problem, levels of accuracy.			

Number: Addition and Subtraction

	PROBLEM SOLVING							
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6			
solve one-step problems that involve addition and subtraction, using concrete objects and pictorial representations, and missing number problems such as $7 = \Box - 9$	solve problems with addition and subtraction: * using concrete objects and pictorial representations, including those involving numbers, quantities and measures * applying their increasing knowledge of mental and written methods solve simple problems in a practical context involving addition and subtraction of money of the same unit, including giving change (copied from Measurement)	solve problems, including missing number problems, using number facts, place value, and more complex addition and subtraction	solve addition and subtraction two-step problems in contexts, deciding which operations and methods to use and why	solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why	solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why Solve problems involving addition, subtraction, multiplication and division			

	MULTIPLICATION & DIVISION FACTS							
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6			
count in multiples of twos, fives and tens (copied from Number and Place Value)	count in steps of 2, 3, and 5 from 0, and in tens from any number, forward or backward (copied from Number and Place Value) recall and use multiplication and division facts for the 2, 5 and 10 multiplication tables, including	count from 0 in multiples of 4, 8, 50 and 100 (copied from Number and Place Value) recall and use multiplication and division facts for the 3, 4 and 8 multiplication tables	count in multiples of 6, 7, 9, 25 and 1 000 (copied from Number and Place Value) recall multiplication and division facts for multiplication tables up to 12 × 12	count forwards or backwards in steps of powers of 10 for any given number up to 1 000 000 (copied from Number and Place Value)				
	recognising odd and even numbers							
		MENTAL CALCU	LATION					
		write and calculate mathematical statements for multiplication and division using the multiplication tables that they know, including for two-digit numbers times one- digit numbers, using mental and progressing to formal written methods (appears also in Written Methods)	use place value, known and derived facts to multiply and divide mentally, including: multiplying by 0 and 1; dividing by 1; multiplying together three numbers	multiply and divide numbers mentally drawing upon known facts	perform mental calculations, including with mixed operations and large numbers			
	show that multiplication of two numbers can be done in any order (commutative) and division of one number by another cannot		recognise and use factor pairs and commutativity in mental calculations (appears also in Properties of Numbers)	multiply and divide whole numbers and those involving decimals by 10, 100 and 1000	associate a fraction with division and calculate decimal fraction equivalents (e.g. 0.375) for a simple fraction (e.g. $\frac{3}{8}$) (copied from Fractions)			

National Centre for Excellence in the Teaching of Mathematics

	WRITTEN CALCULATION								
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6				
	calculate mathematical statements for multiplication and division within the multiplication tables and write them using the multiplication (×), division (÷) and equals (=) signs	write and calculate mathematical statements for multiplication and division using the multiplication tables that they know, including for two-digit numbers times one-digit numbers, using mental and progressing to formal written methods (appears also in Mental Methods)	multiply two-digit and three-digit numbers by a one- digit number using formal written layout	multiply numbers up to 4 digits by a one- or two-digit number using a formal written method, including long multiplication for two-digit numbers	multiply multi-digit numbers up to 4 digits by a two-digit whole number using the formal written method of long multiplication				
				divide numbers up to 4 digits by a one-digit number using the formal written method of short division and interpret remainders appropriately for the context	divide numbers up to 4-digits by a two-digit whole number using the formal written method of short division where appropriate for the context divide numbers up to 4 digits by a two-digit whole number using the formal written method of long division, and interpret remainders as whole number remainders, fractions, or by rounding, as appropriate for the context use written division methods in cases where the answer has up to two decimal places (copied from Fractions (including decimals))				

National Centre for Excellence in the Teaching of Mathematics

	PROPERTIES OF NUMBERS: MULTIPLES, FACTORS, PRIMES, SQUARE AND CUBE NUMBERS							
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6			
			recognise and use factor pairs and commutativity in mental calculations (repeated)	identify multiples and factors, including finding all factor pairs of a number, and common factors of two numbers. know and use the vocabulary of prime numbers, prime factors and composite (non- prime) numbers establish whether a number up to 100 is prime and recall prime numbers up to 19	identify common factors, common multiples and prime numbers use common factors to simplify fractions; use common multiples to express fractions in the same denomination (copied from Fractions)			
				recognise and use square numbers and cube numbers, and the notation for squared (²) and cubed (³)	calculate, estimate and compare volume of cubes and cuboids using standard units, including centimetre cubed (cm ³) and cubic metres (m ³), and extending to other units such as mm and km ³ (copied from Measures)			

ORDER OF OPERATIONS							
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6		
					use their knowledge of the order of operations to carry out calculations involving the four operations		
	IN	VERSE OPERATIONS, ESTIMA	TING AND CHECKING ANSW	ERS			
		estimate the answer to a calculation and use inverse operations to check answers (copied from Addition and Subtraction)	estimate and use inverse operations to check answers to a calculation (copied from Addition and Subtraction)		use estimation to check answers to calculations and determine, in the context of a problem, levels of accuracy		

	PROBLEM SOLVING							
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6			
solve one-step problems involving multiplication and division, by calculating the answer using concrete objects, pictorial representations and arrays with the support of the teacher	solve problems involving multiplication and division, using materials, arrays, repeated addition, mental methods, and multiplication and division facts, including problems in contexts	solve problems, including missing number problems, involving multiplication and division, including positive integer scaling problems and correspondence problems in which n objects are connected to m objects	solve problems involving multiplying and adding, including using the distributive law to multiply two digit numbers by one digit, integer scaling problems and harder correspondence problems such as n objects are connected to m objects	solve problems involving multiplication and division including using their knowledge of factors and multiples, squares and cubes solve problems involving addition, subtraction, multiplication and division and a combination of these, including understanding the meaning of the equals sign	solve problems involving addition, subtraction, multiplication and division			
				solve problems involving multiplication and division, including scaling by simple fractions and problems involving simple rates	solve problems involving similar shapes where the scale factor is known or can be found (copied from Ratio and Proportion)			

Westerings Primary Academy Number: Fractions (including Decimals and Percentages) Find your remarkable

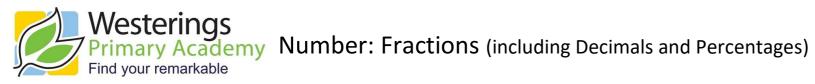

COUNTING IN FRACTIONAL STEPS						
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6	
	Pupils should count in fractions up to 10, starting from any number and using the1/2 and 2/4 equivalence on the number line (Non Statutory Guidance)	count up and down in tenths	count up and down in hundredths			
		RECOGNISIN	G FRACTIONS			
recognise, find and name a half as one of two equal parts of an object, shape or quantity recognise, find and name a quarter as one of four equal parts of an object,	recognise, find, name and write fractions $1/3$, $1/4$, $2/4$ and $3/4$ of a length, shape, set of objects or quantity	recognise, find and write fractions of a discrete set of objects: unit fractions and non-unit fractions with small denominators recognise that tenths arise from dividing an object into 10 equal parts and in dividing one – digit numbers or quantities by 10. recognise and use fractions as numbers: unit fractions and non-unit	recognise that hundredths arise when dividing an object by one hundred and dividing tenths by ten	recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents (appears also in Equivalence)		
shape or quantity		fractions with small				
		denominators COMPARING				
		compare and order unit fractions, and fractions with the same denominators	TRACTIONS	compare and order fractions whose denominators are all multiples of the same number	compare and order fractions, including fractions >1	

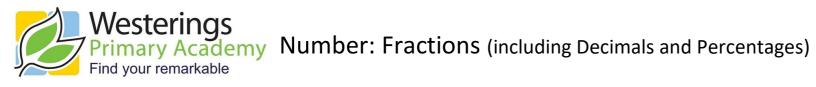

COMPARING DECIMALS									
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6				
			compare numbers with the same number of decimal	read, write, order and compare numbers with up to three decimal	identify the value of each digit in numbers given to three				
			places up to two decimal places	places	decimal places				
		Ļ	ROUNDING INCLUDING DEC	CIMALS					
			round decimals with one decimal place to the nearest whole number	round decimals with two decimal places to the nearest whole number and to one decimal place	solve problems which require answers to be rounded to specified degrees of accuracy				
		EQUIVALENCE	(INCLUDING FRACTIONS, DECIN	MALS AND PERCENTAGES)					
	write simple fractions e.g. $\frac{1}{2}$ of 6 = 3 and recognise the equivalence of $\frac{2}{4}$ and $\frac{1}{2}$.	recognise and show, using diagrams, equivalent fractions with small denominators	recognise and show, using diagrams, families of common equivalent fractions	identify, name and write equivalent fractions of a given fraction, represented visually, including tenths and hundredths	use common factors to simplify fractions; use common multiples to express fractions in the same denomination				
			recognise and write decimal equivalents of any number of tenths or hundredths	read and write decimal numbers as fractions (e.g. $0.71 = \frac{71}{100}$)	associate a fraction with division and calculate decimal fraction equivalents (e.g. 0.375) for a simple fraction				
				recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents	(e.g. ³ / ₈)				
			recognise and write decimal equivalents to $\frac{1}{4}$; $\frac{1}{2}$; $\frac{3}{4}$	recognise the per cent symbol (%) and understand that per cent relates to "number of parts per hundred", and write percentages as a fraction with denominator 100 as a decimal fraction	recall and use equivalences between simple fractions, decimals and percentages, including in different contexts.				

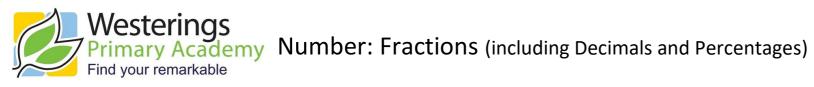

ADDITION AND SUBTRACTION OF FRACTIONS								
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6			
		add and subtract fractions with the same denominator within one whole (e.g. $\frac{5}{7} + \frac{1}{7} = \frac{6}{7}$)	add and subtract fractions with the same denominator	add and subtract fractions with the same denominator and multiples of the same number recognise mixed numbers and improper fractions and convert from one form to the other and write mathematical statements > 1 as a mixed number (e.g. $\frac{2}{5} + \frac{4}{5} = \frac{6}{5}$ = $1^{1}/_{5}$)	add and subtract fractions with different denominators and mixed numbers, using the concept of equivalent fractions			
		MULTIPLICATION AND	DIVISION OF FRACTIONS					
				multiply proper fractions and mixed numbers by whole numbers, supported by materials and diagrams	multiply simple pairs of proper fractions, writing the answer in its simplest form (e.g. $\frac{1}{4} \times \frac{1}{2} = \frac{1}{8}$) multiply one-digit numbers with up to two decimal places by whole numbers			
					divide proper fractions by whole numbers (e.g. $\frac{1}{3} \div 2 = \frac{1}{6}$)			

MULTIPLICATION AND DIVISION OF DECIMALS							
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6		
					multiply one-digit		
					numbers with up to two		
					decimal places by whole		
					numbers		
			find the effect of dividing		multiply and divide		
			a one- or two-digit		numbers by 10, 100 and		
			number by 10 and 100,		1000 where the answers		
			identifying the value of		are up to three decimal		
			the digits in the answer as		places		
			ones, tenths and				
			hundredths				
					identify the value of each		
					digit to three decimal		
					places and multiply and		
					divide numbers by 10, 100		
					and 1000 where the		
					answers are up to three		
					decimal places		
					associate a fraction with		
					division and calculate		
					decimal fraction		
					equivalents (e.g. 0.375)		
					for a simple fraction		
					(e.g. ³ / ₈)		
					use written division		
					methods in cases where		
					the answer has up to two		
					decimal places		

	PROBLEM SOLVING									
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6					
		solve problems that involve all of the above	solve problems involving increasingly harder fractions to calculate quantities, and fractions to divide quantities, including non-unit fractions where the answer is a whole number	solve problems involving numbers up to three decimal places						
			solve simple measure and money problems involving fractions and decimals to two decimal places.	solve problems which require knowing percentage and decimal equivalents of $1/2, 1/4, 1/5, 1/5, 1/5, 1/5, 1/5, 1/5, 1/5, 1/5$						

Ratio and Proportion

Statemer	Statements only appear in Year 6 but should be connected to previous learning, particularly fractions and multiplication and division							
					Year 6			
					solve problems involving the relative sizes of two quantities where missing values can be found by using integer multiplication and division facts			
					solve problems involving the calculation of percentages [for example, of measures, and such as 15% of 360] and the use of percentages for comparison			
					solve problems involving similar shapes where the scale factor is known or can be found			
					solve problems involving unequal sharing and grouping using knowledge of fractions and multiples.			

Algebra

	EQUATIONS								
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6				
solve one-step problems that involve addition and subtraction, using concrete objects and pictorial representations, and missing number problems such as $7 = \Box - 9$ (copied from Addition and Subtraction)	recognise and use the inverse relationship between addition and subtraction and use this to check calculations and missing number problems. (copied from Addition and Subtraction)	solve problems, including missing number problems, using number facts, place value, and more complex addition and subtraction. (copied from Addition and Subtraction) solve problems, including missing number problems, involving multiplication and division, including integer scaling (copied from Multiplication and Division)		use the properties of rectangles to deduce related facts and find missing lengths and angles (copied from Geometry: Properties of Shapes)	express missing number problems algebraically				
	recall and use addition and subtraction facts to 20 fluently, and derive and use related facts up to 100 (copied from Addition and Subtraction)				find pairs of numbers that satisfy number sentences involving two unknowns				
represent and use number bonds and related subtraction facts within 20 (copied from Addition and Subtraction)					enumerate all possibilities of combinations of two variables				

Algebra

	FORMULAE									
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6					
			Perimeter can be expressed algebraically as 2(a + b) where a and b are the dimensions in the same unit.		use simple formulae recognise when it is possible to use formulae for area and					
			(Copied from NSG measurement)		volume of shapes (copied from Measurement)					
		SEQU	ENCES							
sequence events in chronological order using language such as: before and after, next, first, today, yesterday, tomorrow, morning, afternoon and evening (copied from Measurement)	compare and sequence intervals of time (copied from Measurement) order and arrange combinations of mathematical objects in patterns (copied from Geometry: position and direction)				generate and describe linear number sequences					

COMPARING AND ESTIMATING									
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6				
 compare, describe and solve practical problems for: * lengths and heights [e.g. long/short, longer/shorter, tall/short, double/half] * mass/weight [e.g. heavy/light, heavier than, lighter than] * capacity and volume [e.g. full/empty, more than, less than, half, half full, quarter] * time [e.g. quicker, slower, earlier, later] sequence events in chronological order using language [e.g. before and after, next, first, today, yesterday, tomorrow, morning, afternoon and evening] 	compare and order lengths, mass, volume/capacity and record the results using >, < and = compare and sequence intervals of time	compare durations of events, for example to calculate the time taken by particular events or tasks	estimate, compare and calculate different measures, including money in pounds and pence (also included in Measuring)	calculate and compare the area of squares and rectangles including using standard units, square centimetres (cm ²) and square metres (m ²) and estimate the area of irregular shapes (also included in measuring) estimate volume (e.g. using 1 cm ³ blocks to build cubes and cuboids) and capacity (e.g. using water)	calculate, estimate and compare volume of cubes and cuboids using standard units, including centimetre cubed (cm ³) and cubic metres (m ³), and extending to other units such as mm ³ and 3 km ³ .				
		estimate and read time with increasing accuracy to the nearest minute; record and compare time in terms of seconds, minutes, hours and o'clock; use vocabulary such as a.m./p.m., morning, afternoon, noon and midnight (appears also in Telling the Time)							

	MEASURING and CALCULATING									
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6					
 measure and begin to record the following: lengths and heights mass/weight capacity and volume time (hours, minutes, seconds) 	choose and use appropriate standard units to estimate and measure length/height in any direction (m/cm); mass (kg/g); temperature (°C); capacity (litres/ml) to the nearest appropriate unit, using rulers, scales, thermometers and measuring vessels	measure, compare, add and subtract: lengths (m/cm/mm); mass (kg/g); volume/capacity (I/mI)	estimate, compare and calculate different measures, including money in pounds and pence (appears also in Comparing)	use all four operations to solve problems involving measure (e.g. length , mass, volume, money) using decimal notation including scaling.	solve problems involving the calculation and conversion of units of measure , using decimal notation up to three decimal places where appropriate (appears also in Converting)					
		measure the perimeter of simple 2-D shapes	measure and calculate the perimeter of a rectilinear figure (including squares) in centimetres and metres	measure and calculate the perimeter of composite rectilinear shapes in centimetres and metres	recognise that shapes with the same areas can have different perimeters and vice versa					

	MEASURING and CALCULATING								
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6				
recognise and know the value of different denominations of coins and notes	recognise and use symbols for pounds (£) and pence (p); combine amounts to make a particular value find different combinations of coins that equal the same amounts of money solve simple problems in a practical context involving addition and subtraction of money of the same unit, including giving change	add and subtract amounts of money to give change, using both £ and p in practical contexts	find the area of rectilinear shapes by counting squares	calculate and compare the area of squares and rectangles including using standard units, square centimetres (cm ²) and	calculate the area of parallelograms and triangles calculate, estimate and compare				
				square metres (m ²) and estimate the area of irregular shapes recognise and use square numbers and cube numbers, and the notation for squared () and cubed () (copied from Multiplication and Division)	volume of cubes and cuboids using standard units, including cubic centimetres (cm ³) and cubic metres (m ³), and extending to other units [e.g. mm ³ and km ³]. recognise when it is possible to use formulae for area and volume of shapes				

TELLING THE TIME									
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6				
tell the time to the hour	tell and write the time to	tell and write the time	read, write and convert						
and half past the hour and	five minutes, including	from an analogue clock,	time between analogue						
draw the hands on a clock	quarter past/to the hour	including using Roman	and digital 12 and 24-hour						
face to show these times.	and draw the hands on a	numerals from I to XII, and	clocks						
	clock face to show these	12-hour and 24-hour	(appears also in Converting)						
	times.	clocks							
recognise and use	know the number of	estimate and read							
language relating to dates,	minutes in an hour and	time with increasing							
including days of the	the number of hours in a	accuracy to the nearest							
week, weeks, months and	day.	minute; record and							
years	(appears also in Converting)	compare time in terms of							
		seconds, minutes, hours							
		and o'clock; use							
		vocabulary such as							
		a.m./p.m., morning,							
		afternoon, noon and							
		midnight							
		(appears also in Comparing							
		and Estimating)							
			solve problems involving	solve problems involving					
			converting from hours to	converting between units					
			minutes; minutes to	of time					
			seconds; years to months;						
			weeks to days						
			(appears also in Converting)						

	CONVERTING								
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6				
	know the number of minutes in an hour and the number of hours in a day. (appears also in Telling the Time)	know the number of seconds in a minute and the number of days in each month, year and leap year	convert between different units of measure (e.g. kilometre to metre; hour to minute)	convert between different units of metric measure (e.g. kilometre and metre; centimetre and metre; centimetre and millimetre; gram and kilogram; litre and millilitre)	use, read, write and convert between standard units, converting measurements of length, mass, volume and time from a smaller unit of measure to a larger unit, and vice versa, using decimal notation to up to three decimal places				
			read, write and convert time between analogue and digital 12 and 24-hour clocks (appears also in Converting)	solve problems involving converting between units of time	solve problems involving the calculation and conversion of units of measure, using decimal notation up to three decimal places where appropriate (appears also in Measuring and Calculating)				
			solve problems involving converting from hours to minutes; minutes to seconds; years to months; weeks to days (appears also in Telling the Time)	understand and use equivalences between metric units and common imperial units such as inches, pounds and pints	convert between miles and kilometres				

Geometry: Properties of Shapes

	IDENTIFYING SHAPES AND THIER PROPERTIES					
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6	
 recognise and name common 2-D and 3-D shapes, including: * 2-D shapes [e.g. rectangles (including squares), circles and triangles] * 3-D shapes [e.g. cuboids (including cubes), pyramids and spheres]. 	identify and describe the properties of 2-D shapes, including the number of sides and line symmetry in a vertical line identify and describe the properties of 3-D shapes, including the number of edges, vertices and faces identify 2-D shapes on the surface of 3-D shapes, [for example, a circle on a cylinder and a triangle on a pyramid]		identify lines of symmetry in 2-D shapes presented in different orientations	identify 3-D shapes, including cubes and other cuboids, from 2-D representations	recognise, describe and build simple 3-D shapes, including making nets (appears also in Drawing and Constructing) illustrate and name parts of circles, including radius, diameter and circumference and know that the diameter is twice the radius	
			CONSTRUCTING			
		draw 2-D shapes and make 3-D shapes using modelling materials;	complete a simple symmetric figure with respect to a specific line of	draw given angles, and measure them in degrees (°)	draw 2-D shapes using given dimensions and angles	
		recognise 3-D shapes in different orientations and describe them	symmetry		recognise, describe and build simple 3-D shapes, including making nets (appears also in Identifying Shapes and Their Properties)	

Geometry: Properties of Shapes

	COMPARING AND CLASSIFYING						
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6		
	compare and sort common 2-D and 3-D shapes and everyday objects		compare and classify geometric shapes, including quadrilaterals and triangles, based on their properties and sizes	use the properties of rectangles to deduce related facts and find missing lengths and angles	compare and classify geometric shapes based on their properties and sizes and find unknown angles in any triangles, quadrilaterals, and regular polygons		
				distinguish between regular and irregular polygons based on reasoning about equal sides and angles			
			ANGLES				
		recognise angles as a property of shape or a description of a turn		know angles are measured in degrees: estimate and compare acute, obtuse and reflex angles			
		identify right angles, recognise that two right angles make a half- turn, three make three quarters of a turn and four a complete turn; identify whether angles are greater than or less than a right angle	identify acute and obtuse angles and compare and order angles up to two right angles by size	 identify: angles at a point and one whole turn (total 360°) angles at a point on a straight line and ½ a turn (total 180°) other multiples of 90° 	recognise angles where they meet at a point, are on a straight line, or are vertically opposite, and find missing angles		
		identify horizontal and vertical lines and pairs of perpendicular and parallel lines					

Geometry: Position and Direction

POSITION, DIRECTION AND MOVEMENT					
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
describe position,	use mathematical		describe positions on a	identify, describe and	describe positions on the
direction and movement,	vocabulary to describe		2-D grid as coordinates in	represent the position of a	full coordinate grid (all
including half, quarter and	position, direction and		the first quadrant	shape following a	four quadrants)
three-quarter turns.	movement including			reflection or translation,	
	movement in a straight		describe movements	using the appropriate	draw and translate simple
	line and distinguishing		between positions as	language, and know that	shapes on the coordinate
	between rotation as a		translations of a given unit	the shape has not	plane, and reflect them in
	turn and in terms of right		to the left/right and	changed	the axes.
	angles for quarter, half		up/down		
	and three-quarter turns
